ABOUT US

Chandigarh, acclaimed as “The City Beautiful” situated near the foothills of the Shivalik range of Himalayas is renowned for its modern urban design, verdant landscapes, and vibrant cultural ethos and is one of the earliest planned cities in post-independence India.

The master plan of the city was prepared by Swiss-French architect Le Corbusier. Chandigarh has grown greatly since its initial construction, and has also driven the development of the immediately attached cities Mohali and Panchkula making it the tri-city metropolitan area.

Situated in close proximity to this dynamic city, Rayat Bahra University emerges as an ideal academic destination, offering students the dual advantage of world-class education and access to the opportunities, connectivity, and cosmopolitan lifestyle that Chandigarh provides.

# ARTIFICIAL INTELLIGENCE

AI Education for a Smarter, Sustainable *India*

Artificial Intelligence stands at the forefront of India's transformation, driving innovation, efficiency, and inclusive growth across every sector. Our university is committed to nurturing the next generation of AI professionals who will shape this evolution with knowledge, creativity, and purpose. Through cutting-edge curricula, research-driven learning, and industry collaboration, we empower students to harness the power of AI to solve real-world challenges and contribute to the nation's digital progress.

"Artificial Intelligence has emerged as the defining force in India's job market, driving a 15% overall recruitment surge in 2025 and opening the door to nearly 3.8 lakh specialized roles by 2026." The Economic Times
